

For Sale

Pruftechnik Vibscanner. It is set up to do single or two plane balancing either on site or on a balancing bed. I had purchased this equipment just prior to the sale of my company. It is in awesome condition as it was only used once. I have attached a couple of pictures. If anyone would like to check out the website it is www.pruftechnik.com. I paid almost 16K for it but will entertain any serious offers.
